

Bearings

Over the years, Glide has acquired bearings and bushings for many of the repair services we offer. There's plenty of times original equipment manufacturers insist on selling complete assemblies for replacement parts that simply need a new (much less expensive) part. Here are the most common of these parts. **We have more! Call with ALL your bearing needs!**

CHAIN

Here's a statement you don't see every day from a vendor: If you're looking for the lowest prices on chain for your uprights, recumbents and spin bikes, don't buy from us! Remember, we've been in the trenches for years. We know that chains take a pounding, and it's not a simple matter to replace them when they wear out or break. Sure, you'll spend a little more upfront when you buy chain from Glide, but we guarantee you'll save in the long run. All chain cut to order from our prime stock. Call with your make, model and quantity.
