CABLES & LINE CORDS

Would you go back to the car dealer when it's time to replace your spark plugs? Neither would we. So, instead of going back to the factory when you need a cable or line cord, give Glide a call. We contract with an ISO 9000 certified company here in the U.S.A. to produce the most in-demand cables and cords at **medical grade** specifications that meet or exceed OEM. If you don't see what you need in our catalog, just give us a call. Chances are good that we can produce exactly what you're looking for at the right price.
