

Premium Treadmill Lubrication

Now club owners can get the goods the top service pros have known about for years. The best part is that it's not just affordable... it's far less expensive than the products you're already using that are causing major headaches and expense like premature belt and deck wear and costly electronics repairs. **Glide Premium Liquid Treadmill Wax** is a true original that saves club owners money on the front end, as well as the back end. Our proprietary formula was engineered utilizing the latest in nano technology (it really is rocket science)! This means that the lubricating solids are incredibly small – amazingly, about 100 times smaller than OEM. That's how we can guarantee that once you switch over to our Premium Liquid Treadmill Wax, you'll get the best lubrication possible, and **you'll never have to spend time and money cleaning wax nozzles ever again.**

There's buzz going around about Lifestride™ auto-wax systems...

JUST TAKE A LOOK AT WHO'S TALKING!

“As one of the largest refurbishing companies in the country, I can tell you we've tried 'em all. Hands down, without a doubt, you've got the best treadmill lubrication products anywhere. The fact that your Premium Liquid Wax costs far less than OEM or inferior knock-offs makes it a double win for us. Thanks for a great product and your exceptional service!”

Mark Clayton
FITNESS EQUIPMENT SOURCE
SANDY, UTAH

“I was running diagnostics on a Next Gen treadmill and found it was running at 85% of max current draw. All I did was spray some of your wax on the deck... my jaw dropped when I watched the meter fall to 15%. This stuff is incredible!”

Mike Combs, CAROLINA GYM SERVICE, FAYETTEVILLE, NORTH CAROLINA

“After replacing the factory wax with your product at more than a dozen clubs, our first round of inspections showed that wax nozzles didn't have to be serviced at all... and Emerson Control repairs decreased by over 70%. Thank you!”

Jesse Valenzuela, Maintenance Supervisor
Orange County California/Utah BALLY TOTAL FITNESS

“The first time I tried your product, I spilled a little on my warehouse floor. The next day I walked over that spot, and it was like walking on ice! Since then, yours is the only wax I put in treadmills out of warranty. This is saying something since I'm an ISO certified factory tech who services over 500 auto-wax treads. Two years in the field proves that your product prolongs the life of decks and belts, and helps these great treadmills work like they're supposed to for a very long time.”
